

PRICING BULLETIN – Marlite® Brand FRP, PVC Trim Molding, & Adhesives

April 13, 2026

Dear Marlite Customers,

Instabilities in global markets have impacted multiple supply chains. Like so many other manufacturers across broad industries, Marlite is experiencing cost increases in numerous raw materials. In addition, fuel price volatility and transportation costs continue to escalate. These factors substantially outweigh our efficiencies and best practices, positioning Marlite to apply price increases to the following products:

- Standard FRP Wall and Ceiling Panels 5%
- Symmetrix™ SmartSeam (White / Grey / Black color combinations) 5%
- Symmetrix™ SmartSeam (All other color combinations, digital prints) 6%
- Artizan™ FRP (Classic BlueSky™ finishes) 6%
- PVC Trim Molding 5%
- Marlite Brand Adhesives & Sealants (including Advanced Polymer) 8%

Please note Marlite is not increasing prices on new Artizan™ Max FRP.

The new prices are effective on all orders placed on or after Friday April 17, 2026. Orders that fall outside normal ordering patterns will be subject to the applicable price increase as determined at Marlite's sole discretion.

Marlite appreciates your business and will continue to closely monitor the volatile environment and respond as circumstances require.

Sincerely,

Greg Triplett
Vice President – Sales & Marketing
