

April 2026

Subject: Important Pricing Update **Effective April 13, 2026**

Dear Valued Customer,

Due to the ongoing conflict in Iran and the resulting disruption across global energy and raw material markets, we are seeing significant cost increases across several product categories.

Plastics and petroleum-based materials have been especially impacted, along with other energy-intensive production items such as castings, forgings, and extrusions. In addition, rising freight expenses and fuel surcharges continue to place upward pressure on overall costs.

We have worked diligently to absorb as much of these increases as possible and remain committed to holding pricing wherever feasible. However, after careful review, we have identified a limited number of items that require immediate MSRP adjustments.

Effective April 13, 2026, the following items will be adjusted as follows:

- **84-231 — \$9.95 (from \$8.50)**
- **84-230 — \$8.80 (from \$7.45)**
- **84-715 — \$6.40 (from \$5.35)**
- **34-164 — \$10.35 (from \$9.15)**

We are continuing to monitor the situation closely and remain hopeful that market conditions will stabilize soon. However, ongoing global concerns may continue to adversely affect pricing across additional product groupings as well.

If you have any questions, please reach out to your local salesperson or contact us directly at sales@bontool.com.

We sincerely appreciate your continued business and support.

Best regards,

Bon Tool Company
