

May 18, 2026

Dear U.S. Building Insulation Customer:

Johns Manville is announcing a price increase effective **June 5, 2026**. The price increase applies to the following products:

Spray Foam Products	Increase
JM IV HFO Corbond® Closed-cell	10%
JM NMOC Corbond® Open-cell	10%

The primary driver of this announcement is significant increases in raw material costs. While we are actively evaluating all available options to minimize the impact on our Corbond® products, please note that additional pricing adjustments may be required if raw material costs continue to rise.

This price increase will apply to all orders shipped on or after **June 5, 2026**, regardless of the date of order placement. Please check with your Customer Advocate as this date approaches for information on current product lead times.

Johns Manville recommends placing orders early. Johns Manville reserves the right to monitor all orders placed between now and the date of increase and limit quantities if necessary.

If you have any questions about the implementation of this increase, please contact your Sales Representative or Account Manager. Thank you for your ongoing support of JM products.

Gabriel Baradat
