

**Date:** 05/04/2026

**Subject:** Updated Temporary Fuel Surcharge Adjustment – XPS, Fanfold, Housewrap, Kooltherm, Optim-R/RE, Housewrap, Tape, and Flashing

Dear Valued Customer,

Due to the ongoing conflict in the Middle East and the resulting volatility in global energy markets, over-the-road diesel and transportation costs have risen materially and unpredictably. To maintain reliable service levels, Kingspan Insulation will implement a temporary fuel surcharge for shipments of XPS, Fanfold, Housewrap, Kooltherm, and Optim-R/RE.

**Effective Date:** 5/11/2026

**Scope:** Applies to shipments within the United States & Canada, by region and mode as shown below.

**Duration:** This is a temporary measure; we will monitor market conditions and review the surcharge regularly. We will reduce or remove it once fuel costs recede based on the DOE National Diesel Fuel Price Index US avg.

**Full Truckloads**

\*denotes drop charge

We appreciate your partnership and understand that any increase is meaningful. Our goal is to be transparent, maintain service continuity, and remove this adjustment as soon as conditions allow. If you have questions about how this affects a specific shipment, please contact your Kingspan representative or our customer service team.

Sincerely,

Denton Brader

Director of Supply Chain  
Kingspan Insulation North America
