

THE PROFESSIONAL'S CHOICE SINCE 1974

April 30, 2026

Dear Valued Customer:

Effective June 15, 2026, Omega Products will implement a 5% price increase across all our products. This decision follows a careful review of our rising costs for internal labor and many raw materials, including graded aggregates, lime, cement, and certain chemicals.

We understand that price increases can be challenging, and we appreciate your understanding and continued support. We value our partnership and are committed to driving demand for Omega products through our valued distributors.

If you have any questions or need further information, please do not hesitate to contact us.

Sincerely,

OMEGA PRODUCTS INTERNATIONAL
