Price Increase Announcement – Effective August 3, 2026

Dear Valued Customer,

Effective August 3, 2026, CEMCO will implement a price increase on all steel-based products across all markets.

U.S. steel mills have announced substantial price increases for August shipments, adding to the multiple increases already implemented from January through July of this year. At the same time, limited availability of imported steel and higher domestic mill utilization rates have further constrained supply in the U.S. market.

As a result of these continued cost and supply pressures, CEMCO must implement this pricing adjustment, including recently revised coating extras, to help offset the impact on our overall cost structure.

Please note this increase is in addition to the previously announced increase scheduled for June 29, 2026.

Updated price sheets will be available from your sales representative during the week prior to the effective date of the increase. In addition, job quotes will be honored if committed in writing within **30 days** of origination, and quoted pricing will remain **firm for 180 days** from the date of issuance.

Please refer to CEMCO's job quote policy at the link below:

We appreciate your continued business and support.

Sincerely,

CEMCO Sales Management Team
