Price Increase Announcement – Effective November 2, 2026

Dear Valued Customer,

Effective November 2, 2026, CEMCO will implement a price increase on all steel-based products across all markets.

November pricing from U.S. steel mills reflects another month-over-month increase. Constrained domestic steel availability continues to keep mill utilization above average, creating upward pressure on prices and limiting mills' willingness to negotiate.

In response to these rising costs, CEMCO will increase prices on all steel-related products shipped in November. We understand the challenges these significant price changes create for our customers and will provide additional updates as information becomes available.

As always, updated price sheets will be available from your sales representative during the week prior to the effective date of the increase.

We appreciate your continued support and understanding as market conditions continue to change.

Sincerely,

CEMCO Sales Management Team
