Customer Notice: Truck Delivery Fee Increase for Styrofoam™ Brand Insulation Products Shipped in the United States

Dear Valued Customer,

Effective October 22, 2026, DuPont is increasing the existing Truck Delivery Fee applicable to shipments of Styrofoam™ Brand Insulation products for orders where DuPont arranges transportation and absorbs the freight cost. This fee is part of DuPont's Transactional Service Standards and reflects increased costs associated with providing transportation and delivery services. The fee will continue to appear as a separate Freight Surcharge line item on customer invoices.

The updated fees below will apply to applicable orders of Styrofoam™ Brand Insulation products shipped in the United States on or after October 22, 2026, subject to applicable law and contractual obligations.

<u>Load Size</u>	<u>Updated Truck Delivery Fee</u>
Full Truck Load	\$720
Multi-Stop Partial Truck Load	\$450
Matched Order Stop Over Fee	\$100 / stop

DuPont will review these fees periodically as transportation and operating conditions change.

We value your business and appreciate your understanding. If you have questions regarding this update or its application to your orders, please contact your DuPont sales representative.

Sincerely,

A handwritten signature in black ink, appearing to read "Tom Evans".
