November 20, 2026

Price Increase Announcement – Effective January 4, 2027

Dear Valued Customer,

Effective January 4, 2027, CEMCO will implement a price increase on ALL PRODUCTS across all markets.

Throughout 2026, U.S. domestic mill leads times for hot-dipped galvanized (HDG) sheet steel have steadily lengthened, from 6–8 weeks early in the year to 10–12 weeks or more today. These are the longest lead times since the post-pandemic surge of 2021.

These extended lead times reflect a continued tightening of supply. As a result, domestic steel mills have indicated they will increase prices for all January 2027 shipments. Current offers for January tons are higher than any of the monthly increases we experienced in 2026.

We are also experiencing cost increases in the raw materials and other inputs used in our non-steel products. Accordingly, the January 4, 2027, price increase will apply to all products within the Firestopping and SureBoard® categories.

Updated price sheets reflecting the January 4, 2027, increase will be available from your sales representative during the week of December 28, 2026.

We value your partnership and appreciate your continued support.

Sincerely,

CEMCO Sales Management Team
